

WLG

LOG GRAB FOR MINI EXCAVATOR

NEW

FORESTRY

The **innovative WLG** is the ideal tool for green maintenance, in agricultural/forestry environment, and it has been studied for light duties allowing wood and log moving with ease and safety.

Ideal for **agricultural company, green areas' managing company and mini excavator's retail operator, and forestry crane of small dimensions.** It has been completely built in high resistance steel to guarantee strength and reliability. The innovative structure has a self-supporting frame which reduces the operating weight and maintenance time without limiting the use. Its standard cylinder mounts a safety valve. It can be equipped with hydraulic or mechanical rotation.
